Kamakshi Prabhuajgaonkar – Unity Developer Resume

Unity Developer | 2D/3D Games | AR Development

Pune, Maharashtra | 8806350147 | kamakshiprabhu24@gmail.com

LinkedIn | Portfolio

Professional Summary

Unity Developer with 3+ years of experience building 2D, 3D and AR mobile applications for EdTech, including learning apps used by 500+ students and global learners. Skilled in C#, AR Foundation, Unity UI, Addressables and cross-platform deployment across Android, iOS, PC and WebGL. Known for reusable, efficient code that improved feature development speed by 20%. Currently building independent Unity projects and open to Unity, AR/XR and game development roles.

Skills

- **Engine and Languages:** Unity (2D/3D), C#, Unity UI (UGUI), Animation Systems, Addressables
- **AR and Platforms:** AR Foundation, Android, iOS, PC, WebGL
- **Tools and Practices:** Git, Plastic SCM, Performance Optimization, Singleton / Observer / Object Pooling patterns, Agile collaboration

Experience

Independent Unity Developer | Aug 2025 – Present

- Developing *Gravity Swap*, a 2D puzzle-platformer built around a gravity-flip mechanic
- Rebuilt a personal portfolio website (GitHub Pages) presenting three shipped EdTech and AR projects with demo videos
- Maintaining Unity projects under Git version control with a structured repository setup

Unity Developer, Ciklum India Private Limited, Pune | June 2022 – July 2025

- Built a Unity e-learning app for 500+ students, with responsive UGUI-based UI flows
- Developed 2D and AR educational games using C# and AR Foundation for Android, iOS, PC and WebGL
- Applied Singleton, Observer and Object Pooling patterns and reusable components, improving feature development speed by 20%
- Optimized builds for performance on Android devices
- Built rapid prototypes to test new features and check feasibility for future development

Projects

Shivaji University (SUK) AR Learning App | Android, iOS, PC, WebGL

- Built a 3D/AR learning app for 8th–12th grade and engineering students covering Physics, Chemistry and Biology
- Created interactive animations, measurement tools and AR modules to explain complex concepts visually

Grace – Digital Learning | Android

- Built an interactive e-learning app for young children with activities, colorful visuals and age-appropriate content

Ignite by Hatch – Gaming Module | Android, iOS, PC, WebGL

- Contributed to the gaming module of an EdTech app used by global learners
- Built rapid prototypes to validate feasibility of upcoming features

Gravity Swap (in development) | 2D Unity puzzle-platformer

- Designing levels around a gravity-flip mechanic as a personal portfolio project

Education

- BE, Computer Engineering, Mumbai University (2019 – 2022)
- Diploma, Computer Engineering, MSBTE (2016 – 2019)

Achievements and Certifications

- Star Award of the Quarter, Ciklum

- Team of the Quarter (Q3 2024), Ciklum
- 1st Place, Kenny Game Jam
- Certifications: Unity Essentials, Junior Programming, C# Unity Game Developer, Augmented Reality Course

Languages

English, Hindi, Marathi
